PROFESSIONAL SUMMARY

Results-driven Frontend Engineer with 2+ years of hands-on experience architecting and delivering fast, responsive web applications and SaaS interfaces. Specializes in **React.js**, **Next.js**, **TypeScript**, and **Tailwind CSS**. Proven ability to translate complex Figma design systems into pixel-perfect code, integrate RESTful APIs, and engineer client-side applications optimized for top Lighthouse performance and search engine visibility.

TECHNICAL SKILLS

Core Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libs: React.js, Next.js, Redux Toolkit, Context API, SolidJS
Styling & UI: Tailwind CSS, Responsive Web Design, CSS Modules, Flexbox/Grid
APIs & Tooling: REST APIs, Git, GitHub, Vercel, NPM, Chrome DevTools

WORK EXPERIENCE

Frontend Developer — Independent Contractor / Freelance

2023 – Present

- Architected and deployed responsive, mobile-first web applications using React, Next.js, and TypeScript, achieving consistent 95+ performance scores on Google Lighthouse.
- Translated Figma wireframes and design systems into modular, reusable component libraries with Tailwind CSS.
- Integrated secure REST APIs, authentication flows, and real-time client-side state handling to ensure fluid user experiences.
- Conducted cross-browser testing and responsive layout debugging to ensure seamless rendering across mobile, tablet, and desktop viewports.

FEATURED PROJECTS

HireSpace — Workforce & Service Marketplace Platform [\[Live Demo\]](#)

React • Tailwind • REST API

- Developed an end-to-end on-demand service marketplace connecting businesses and clients with local talent.
- Engineered real-time chat architecture, interactive talent search filters, and responsive user dashboards.
- Implemented clean component structures and optimized asset loading for snappy page transitions.

Scissor — URL Shortener & Link Analytics Management [\[Live Demo\]](#) [\[GitHub\]](#)

React • TypeScript • Tailwind

- Built a high-performance URL shortening platform with custom alias selection, domain management, and QR code generation.
- Enforced strict type safety with TypeScript to handle URL validation, error boundaries, and state synchronization.

WeatherGlass — Climate Intelligence & Predictive Forecast App [\[Live Demo\]](#) [\[GitHub\]](#)

React • OpenWeather API • Glassmorphic UI

- Created a modern weather forecast application delivering live location analytics and 5-day predictive forecasts.

- Integrated OpenWeatherMap API with client-side caching to reduce latency and eliminate redundant network calls.

EDUCATION & LEADERSHIP

Diploma in Frontend Engineering — [AltSchool Africa](#)

2022 – 2023

- Completed intensive practical curriculum in modern JavaScript (ES6+), React.js, software engineering principles, and web accessibility.
- **Circle Co-Lead:** Appointed to coordinate a 15-member engineering circle, leading weekly peer code reviews, sprint check-ins, and collaborative hackathon deliveries.
